## Efficient Global Equities

31 December 2024

### Fund Overview

CompAM Efficient Global Equity is an effective solution for investors looking to gain exposure to world equity markets. The Efficient Global Equity Sub-Fund will seek to have a global exposure to the equities investing most of the assets in short-dated bonds issued by governments of the Eurozone and certain supranational issuers and gaining exposure to Global Equities using index futures traded in derivative exchanges domiciled in developed countries. Currency exposure will be towards the Euro.

### Investment Strategy

The Sub-Fund aims to obtain long-term gains and will seek to have exposure to global developed market equities that will range between 95% and 100% of its net assets by using financial derivative instruments listed in regulated markets domiciled in developed countries. The main part of the nets assets will be invested in bonds issued by governments of the Euro Zone member countries, the European Union or the European investment Bank with residual maturity up to twenty-four (24) months.
